

# DIDSBURY PIONEER

Vol XXIII

THURSDAY, JULY 8th, 1926

No. 27

For Limburger Cheese **The Hub** Palm Olive 3 for 25c

**Fruit. Fruit. Fruit.**

**This is the time for Fruit.**—Raspberries will be at their peak this coming week. Don't Delay. Good berries that are nice and dry, and well colored, are worth more at any time than later berries that are not so firm—maybe wet and soft. The better berries preserve nicer, hold their shape and taste better. It pays to buy the good fruit at the right time.

Besides the Rasps we will have other fruit in season—  
**Cherries. Apricots. Loganberries.**  
**Gooseberries. Black Currants.**

**Red Currants.**

We will be glad to look after your fruit orders.

**Oranges and Lemons. Hot House Tomatoes**  
**Bananas.**

**FARMERS!**

**We Want Your EGGS.**

Phone 42

*J. R. Miller*

We have Poultry Crates for those shipping poultry.

## Provincial Government Majority Increased.

The U.F.A. candidate declared elected in Bow Valley on a tie.

The political fight in the Bow Valley constituency has been watched with a great deal of interest. The result has now been declared as follows:—

### First Count

Plumer ----- 863  
Shaw ----- 840  
Purcell ----- 641

### Second Count

Plumer ----- 1039  
Shaw ----- 1039  
Plumer declared elected.

Although J. T. Shaw is considering applying for a recount of the vote in the Bow Valley river, Ben Plumer, U.F.A. candidate, will be officially declared elected, following the count of second choices on Saturday, which ended in a tie between the Liberal leader and the government candidate.

According to the election regulations, in such cases the candidate leading on the first count is elected.

With the addition of Bow Valley, standing of the parties is now:—

U.F.A.	42
Liberals	5
Labor	5
Conservatives	1
Ind.-Labor	1
Doubtful	4
Total	61

## Big Vote Pollled for A. B. Claypool.

The various polls in this riding give results as follows:—

	Claypool	MacDonald	Williams
Davis	42	14	3
Gohert	39	3	0
Grainger	48	10	8
Acme	141	21	33
Hesketh	28	9	27
Carbon	71	91	76
Carstairs	82	69	53
Bancroft	26	2	3

## KNOX UNITED CHURCH

The subject for Sunday, July 11th is one of interest to all, namely "The Grand Adventure of Life." Ask yourself of what does this consist? While this paper goes to press two men are attempting to break the record for a round the world flight. Would this in your opinion be the grand adventure of life? The theme is a vital one and should not be missed.

During the warm weather the services will be limited to one hour. A bright, cheerful service. You'll enjoy it.

## "Into and Out of Infidelity."

(The Story of His Conversion)

Is DR. LITCH'S subject Sunday night at the WESTCOTT BAPTIST CHURCH.

DR. LITCH will also speak at ZELLA SCHOOLHOUSE SUNDAY MORNING.

YOU ARE CORDIALLY INVITED.

## KYANIZE

IS HIGH-GRADE.

**Kyanize Sanitary Floor Enamel.**

A new and different coating for old floors that is washable sanitary, and exceedingly tough and durable. Will not crack, peel or chip.

**Kyanize Floor Finish.**

One gallon of this will cover 400 square feet two coats when properly applied.

**Kyanize Celoid Finish.**

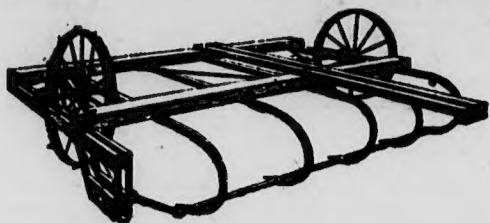

Here is a product that fulfils completely the demand for a durable, lustrous and washable semi-gloss enamel finish for Walls, Furniture and Woodwork.

**W. G. LIESEMER**

Dealer in Shelf & Heavy Hardware, Stoves, Tinware  
Paints, Oils Farm Implements

## Samson Rotary Rod Weeder.

The Samson Weeder will pull weeds better than they can be pulled by hand and will weed thirty acres per day.

Call and inspect this wonderful implement.

## WORLD HAPPENINGS BRIEFLY TOLD

Miss Catherine Jellicoe, an aunt of the Earl of Jellicoe, died at Southampton, June 27. She would have been 125 within a few weeks.

Col. M. McLean, 87, Fenian Raid veteran, whose father was a factor for the Hudson's Bay Company in Western Canada, is dead.

Saskatchewan's bee population has been increased this year by a big influx of imported bees from various points in the Southern States and also Manitoba aparies.

The King and Queen opened a new wing of the Tate Picture Gallery, near Westminster, including a special gallery housing 200 oil paintings, water colors and sketches of the late John Sargent.

Pickets enforcing the anti-British strike and boycott against Hong Kong killed five persons and wounded another when they fired into a group of Chinese about to board a vessel for Hong Kong.

Exile to the Mar Islands has been decreed by the Mexican Government as the penalty for illegal sale of narcotics. Proprietors of stores caught selling drugs illegally, will be forbidden to operate drug stores in Mexico again.

League of Nations officials insist that the resignation of several or any of the small powers will not seriously affect the league's influence, and that only if a great power like Great Britain or France resigns would the league be really in peril.

Labor leaders in Harbin, Manchuria, are collecting \$20,000 to be sent to England to aid striking British miners. Members of professional unions are required to subscribe one per cent. of their monthly wages to make up the \$20,000 quota.

The will of John R. Booth, Canada's foremost lumberman, who died last fall, was filed in the Surrogate Court at Ottawa and disposes of an estate estimated at \$7,635,02. The entire estate is left to his three surviving children, two sons, C. J. Booth and J. Frederick Booth, and one daughter, Mrs. H. Gertrude Fleck, widow of the late Andrew Fleck. They all reside in Ottawa.

## TEETHING BABIES Thousands of Them DIE EVERY SUMMER

The hot weather is very hard on babies starting to cut their teeth. On the first sign of any looseness of the bowels the mother should give a few doses of

This will quickly offset the diarrhoea, vomiting and purging, and, perhaps save the baby's life.  
Put up only by The T. Milburn Co.,  
711 Adelaide, Toronto, Ont.

## Northern Route For Cattle

Mayor of Saskatoon is a Strong  
Supporter of the H. B. R.

Mayor Russell Wilson, of Saskatoon, is a strong advocate for the early completion of the Hudson Bay Railway. In a recent interview with the local Saskatoon paper his worship said:

"As mayor of Saskatoon it is my policy in co-operation with the other members of the city council, the board of trade, the press and all other citizens to secure at the earliest possible date such railway construction as will link up Saskatoon and Hudson Bay Junction by the shortest possible mileage. While I cannot, of course, state definitely what that mileage would be, an approximate estimate is 175 miles. From there The Pas is 88 miles and from that town to Port Nelson is 424 miles, being a total of 687 miles from Saskatoon to tide water. The proposed line giving Saskatoon direct connection with the Hudson Bay Railway would, no doubt, pass through Humboldt.

"It can reasonably be anticipated," said the mayor, "that one of the many readjustments in the routing of traffic following the opening of the bay route will be in connection with the great cattle industry of Southern Alberta. I anticipate the day when those cattle will pass through Saskatoon enroute to Liverpool and other European ports."

"From, say, Calgary to Montreal via the Canadian Pacific Railway is 2,246 miles. From Montreal to Liverpool via Belle Isle—a route available only a portion of the year—is 2,760 miles, a total, Calgary to Liverpool, of 5,005 miles, the rail haul being 45 per cent. of the total mileage. From Calgary to Liverpool via Montreal and Cape Race the mileage is 5,255 miles, of which the rail haul is 43 per cent."

"From Calgary to Port Nelson, via the proposed direct line," Saskatoon to Hudson Bay Junction, the mileage approximately would be, Calgary to Saskatoon, 400 miles; Saskatoon to Fort Nelson, 687 miles, a total of 1,087 miles—say 1,100 miles—and from Port Nelson to Liverpool 2,966 miles—a total of 4,066 miles, of which only 27 per cent, is rail haul." The mayor, as one familiar with the subject, pointed out that while cattle in transit "shrink" during railway travel, they "pick up" on board ship. Also that the coolness of the bay route would insure their arrival at port of disembarkation in fine condition and he stressed two marked advantages as favoring the bay route for cattle shipment—less total mileage and a lower percentage of that total being rail haul than that of any existing North Atlantic route."

## Pain in the Back Yields to Nerviline

If you have failed to secure relief from other remedies, rub on lots of good old "Nerviline," the strongest, most penetrating pain relief on the market. Nerviline acts quickly on small pains and is the surest to drive out the big ones. It's because every drop of Nerviline rubs in, because it has the ability to sink in deeply that it drives away pain that ordinary oily liniments won't touch. Large 35c bottles at all dealers.

## Dedicate Window In Westminster Abbey

In Memory of British War Prisoners  
Who Died in Germany

A beautiful window in the north side of the nave of Westminster Abbey, which was donated by James W. Gerard, former United States ambassador in Berlin, in memory of British prisoners of war who died in Germany, was dedicated in London. The ceremony was performed by Dr. Foxley Norris, dean of Westminster. Mr. Gerard was represented by Alan B. Houghton, the American ambassador to London, and many other Americans were present.

### Strange Aquatic Animal

A strange looking aquatic animal reported to be half the length of a canoe, and believed to be a giant surgeon of a species known to abound in northern waters, was seen in the Ottawa River recently. It was first thought to be one of two poeciliidators who escaped from Aylmer, Que., last year, but naturalists claim an alligator could not survive a winter in a frozen river.

Success is the only thing that can turn a man's head when he has a stiff neck.

## SUNDAY SCHOOL LESSON

JULY 4

### CHILDHOOD AND EDUCATION OF MOSES

Golden Text: Train up a child in the way he should go, And even when he is old he will not depart from it. Proverbs 22:6.

Lesson: Exodus 2:1-10; Acts 7:22. Devotional Reading: Proverbs 3:1-18.

### Explanations and Comments

The Birth and Hiding of Moses Exodus 2:1-4.—To Amram and Jochebed (Ex. 6:20), husband and wife who belonged to the tribe of Levi, a son was born. The mother saw that he was strong and healthy, "a goodly child." Stephen called him "exceeding fair," Acts 7:20.

"Some people have to struggle all their lives against physical disabilities and deformities. Moses was an army of appeals and a basket of charms from the beginning. It is useless to teach a child who is marked out from his fellows by unusual attractiveness and power, that he is no better than his fellows. There is only one way of coping with the situation. From the beginning, the privileged one must be taught his duty to the unprivileged. Privilege and responsibility are indissolubly united. That is the wholesome truth, which is as salt to the unusually enriched life" (R. C. Gilke).

For three months Jochebed kept her babe securely hidden, despite Pharaoh's command that every son of the Hebrews should be cast into the Nile, where they would be devoured by crocodiles.

There are hosts of babies in our great cities who are exposed to a worse fate than were the Hebrew infants. What is being done to save them?

Jabot Treatments' Lend Grace to  
Daytime Frocks

This chic frock illustrates the simplicity of treatment which expresses the correct note for general daytime wear. Developed in one of the wide bordered crepes, it has soft gathers at each shoulder where the back comes over to meet the front, creating, as it were, a yoke effect. Gracefully draped jabots outline the deep V front opening, and an inverted plait extends from the waistline to the lower edge of the skirt. The back is straight and a narrow belt creates the new bloused effect at the sides. No. 1339 is in sizes 36, 38, 40, 42 and 44 inches bust. Size 38 bust requires 4 yards 39-inch for dress made of plain material; or 3 1/2 yards wide bordered material as illustrated. Price 20 cents.

Many styles of smart apparel may be found in our new Fashion Book. Our designers originate their patterns in the heart of the style centres, and their creations are those of tested popularity, brought within the means of the average woman. Price of the book 10 cents the copy.

## WILSON'S FLY PADS

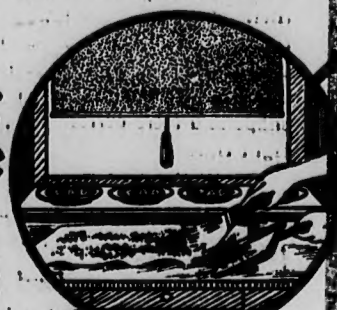

WHEN USING  
WILSON'S  
FLY PADS  
FLIES DIE QUICKLY AND  
EASILY AND  
DO NOT  
REPRODUCE

There is  
only one  
way to kill  
all the Flies

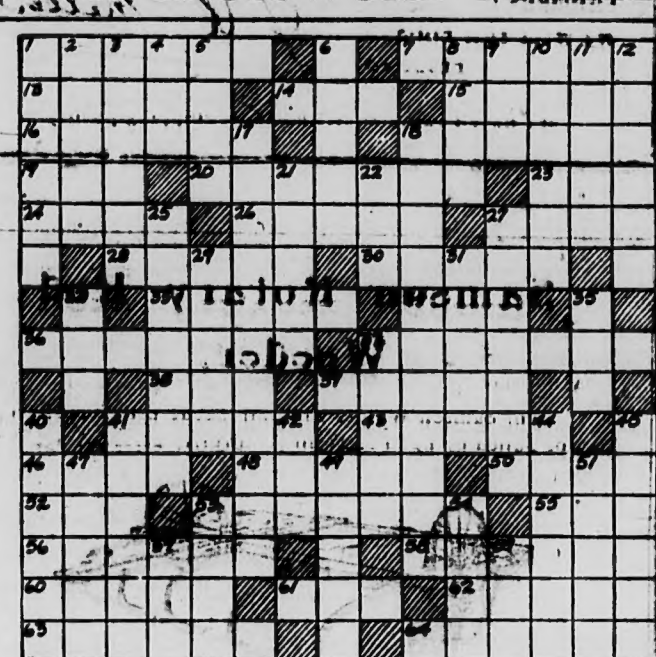

This is the only way to kill all the flies in your room. Place one of the pads where the sun shines in, about eight inches, place as many Wilson's Fly Pads as possible on plates (properly wetted with water but not flooded) on the window ledge where the light is strong, leave the room closed for two or three hours and sweep up the flies and burn them. See illustration below.

Put the plates away, out of the reach of children until required in another room.

The right  
way to use  
Wilson's  
Fly Pads

## OUR CROSSWORD PUZZLE

### Horizontal

- 1—Stupor.
- 7—Plays without expression (mus.).
- 13—Good-bye.
- 14—Prior to.
- 15—A style of modern type.
- 16—to form anew.
- 18—to revolve.
- 19—Pshaw.
- 20—Expressed gratitude.
- 23—A fleshy tumor.
- 24—Single.
- 25—Stopped, finished.
- 27—Withered (var.).
- 28—River in Alaska.
- 29—An association of people.
- 33—Small Asiatic lemur.
- 34—For.
- 36—A judge, an umpire.
- 37—Taste (var.).
- 38—Latin (abbr.).
- 39—Fully.
- 41—Cone-shaped.
- 43—to heave upward, as a vessel on a wave.
- 46—to pave with flagstones.
- 48—Capital of the Island of Crete.

### Vertical

- 1—A large fish found in southern waters.
- 2—A footed theatre in ancient Greece.
- 3—Abundantly.
- 4—A small vegetable.
- 5—to eject.
- 6—to mark with a iron.
- 8—Walked.
- 9—A settled habit.
- 10—Not afraid.
- 11—A bishop's head-dress.
- 12—Parts of a play.
- 17—Pertaining to theory.
- 18—to repeat.
- 21—Girl's name.
- 22—Small cask.
- 25—Christmas Eve fire-log.
- 27—One of a Slavonic people.
- 29—F. J. Mohammedan scripture.
- 31—Wrathful.
- 32—to jellify (biol.).
- 35—to name.
- 37—Melts.
- 40—Pretend.
- 41—The hind bow of the saddle.
- 42—A domestic animal.
- 44—A Belgian Roman Catholic priest, the apostle of Malokai.
- 45—A grass-like herb (pl.).
- 47—Pertaining to the sun.
- 49—Pertaining to snow.
- 51—to burn slightly.
- 52—Child's neck-thens.
- 54—Long ago.
- 57—Money (Roman Antiq.).
- 59—Capital of Brazil, S.A. (var.).

## Looks Like Pleasant Farm

But England's Leper Colony is Lonely  
Isolated Spot

England's leper colony is one of the most lonely and isolated spots in that country. Travellers on these remote roads pass a collection of small houses set in the heart of fields. There are cows, and poultry, and a dog that barks fiercely. It looks like a pleasant small holding. But the inhabitants of the houses are lepers. They are British men, women and children who have lived abroad, and who once in perfect health have contracted leprosy. Anting is a leper colony, gives them the most tender care.

First Dub: How did you like Hamlet last night?

Second Dub: Well, it seemed like a good show, but it was all made up of quotations.

### Coming To Canada

Fifty-six single young men who have undergone six months training in agricultural work at the ministry of labor's training centres at Brandon and Clayton in 1934 left for Canada recently on the Empress of France. They will proceed to Winnipeg where they will be placed on selected farms.

Strange, Romantic Love Adventures of the Flapper you know

# Joanna

by H. L. GATES

Copyright 1925 by H. L. GATES  
Published by arrangement with First National Pictures, Inc.

## THE STORY THUS FAR

Joanna, a pretty, ultra-modern, shop girl is told by her employer that she has been given a million dollars to spend by an unknown benefactor. She is not even to know his name, there are no "conditions" to meet before she can get the money. Nothing more than this can be gained from banker Eggleston, nor his suave, man-about-town nephew, Brandon, who informs her that he intends to make love to her while helping her write her first check. Dazed by this sudden deluge of wealth, hurt because her friends and acquaintances will not believe in her she returns home happy after an orgy of buying to find John, her old-fashioned sweetheart and Brandon awaiting her. Brandon is suave, John silent—almost boorish. After Brandon leaves, John informs Joanna that he does not believe she came by the money honorably. He is angry.

## CHAPTER VIII.—(Continued)

With her awakening to the new day—the first full day of her new estate, varying emotions rushed in confusion into Joanna's mind. Her first thought was of John. With it came the surge of recollection of the scene in the "drawing room only." She winced at the sudden memory. She would get hold of him right away. She wouldn't lose a minute—before he went to his work! She hurried her hand in the hair on the pillow beside her. George had stubbornly shut her eyes, refusing to be ordered up by any housemaid, but opened them wide at the viciousness of Joanna's tug at her shingled head.

"Pile out and get dressed," Joanna commanded. "And be quick—you can make up afterwards. Bring some things in and we'll ask Mrs. Adams to let us cook them in the kitchen for breakfast—and I want you to telephone from downstairs on your way out."

George, her wits not fully gathered, broke off short in a general remark to the effect that some people had their crust. Things came back to her, especially that she must send word to the store that she'd broke a leg, or her neck, and couldn't show up at the silk counter until the next day, and that Joanna was going to take her shopping. She blotted out her first remark with: "Surest thing you know." And, in her own conception of the way people kept their affairs straight, she added:

"I'll make the telephone in about two minutes. What did you say John's number is?"

But Joanna decided she wouldn't telephone to John. The hurt was too lively, and bitter. She didn't even

want to ever hear from him again. Brandon had said she mustn't make mistakes. That her perspective was no longer that of the shop girl's. Brandon! Who, and what, was he? He must be mixed up in this strange affair of her's in some way, but he denied it. She didn't like him. Why? She was afraid of him. Why? Wasn't it because she was afraid of him, of his association with her unexplainable good fortune, that she didn't like him? He had been so quick to begin his acquaintance with her, and he frankly said he was going to be devoted to her.

Yet Brandon had nothing to do with her amended command to George who had whistled her way into the few clothes she habitually wore and who was asking what she'd say to John when she got him.

"Nothing," Joanna replied, tartly. "I don't want you to call him. Don't be silly. I was only joking. Just get the breakfast. Take a five hundred dollar bill and tell me what delicatessen men look like when they have fits."

Awakening to the first full day of her new estate, her first thought was of John.

Which George gayly did. Her report was hysterically satisfactory, sobered only by the discovery that she'd been short-changed ten dollars out of the twenty dollar bill she had finally given him.

"Let him keep it," Joanna ordered, shortly. "It'll be something to remind him of the next time he refused you credit."

"If you get me those duds you've promised me," George returned, "I'll get my herring and dill pickles at the Ritz. See if I don't. All I need is clothes to get out of the delicatessen class."

Joanna shot a keen look at her, but said nothing. John had turned her out against preaching.

The beautifications that are suitable to new street tailors, Joanna's which she had worn the afternoon before, and her preliminary gift to George, which George had blossomed in for the evening, are not hasty ceremonies. It was well toward noon when the two girls settled in their taxi. And then George had to wait, a block from the store, where she would not be detected as having broken neither a leg nor a neck, while Joanna presented herself to Mr. Graydon's secretary. She just wanted to talk to him again, she explained, and to let him see her.

The "boss" of yesterday made her understand that he was her "friend" of today, and all days. He thanked her, gently, for stopping in, and hoped that she would come in often. But he would not give her the thing she asked. Advice. Something that would be a hint to her of what was expected of her; of what she should do to carry out the wishes, or the plans, of her unknown benefactor.

"I have been cautioned by your banker, Eggleston," he said, "that I

must not pretend to advise you. Not now, at any rate. Mr. Eggleston is emphatic in saying that a condition that went with the money was that you solve your own problems. After a while, perhaps, some of the severity of the ban may be lifted. Just now I mustn't interfere."

"Am I just to take all this money and go out and spend it, then?" Joanna persisted.

"Just go out and spend it—some way. I suppose that is one way of repeating that you may do with it whatever you wish."

So naturally that she did not know that she was doing it, she began to tell him about Cohen, and Mrs. Adams, and John. Suddenly she hesitated and was abashed. "But all that doesn't interest you, does it?" she apologized.

The gray man had been watching her intently. Almost eagerly. He reassured her quickly. "On the contrary, Joanna, that is just what—I mean, it does interest me tremendously. Won't you go on—about John? You straightened him out, I hope and it's quite all right, now?"

"No," Joanna replied, her voice quavering a little. "I didn't, and it isn't. I'm afraid it's all crooked in his mind."

"What are you going to do about it?" "Just let it stay crooked, I guess. Crooked things that ought to be straight, must get that way by themselves, I think. If they have to be hammered out, they're only make-believe." She was silent, for a minute, then added so suddenly that Graydon was sure she hoped to catch him off his guard.

"What would you do about it if you were in my place?" He smiled. "That is one of the very things I mustn't advise you about. But I shall want to know, very sincerely, when it begins to straighten out—and see what happens then. I shall be interested in John."

"Well, that's more than I am, right now," the girl retorted. She was restless under the keen scrutiny with which Graydon was suddenly observing her. She was still uncomfortable when she said goodbye to him. She had intended to ask him what part in her affairs he thought Brandon was to play. But she concluded that she would have to find that out for herself, too. It was then that she resolved that perhaps Brandon could show her the way to go, as well—better, perhaps, than John.

(To be continued)

The musician who plays by note has to face the music.

## Why Suffer With Itching Rashes

When a warm bath with Cuticura Soap and application of Cuticura Ointment will afford immediate relief and point to permanent skin health in most cases when all else fails.

Sample each free by mail. Address: Canadian Depot: "Stenhouse Ltd., Montreal." Price, Soap 25c. Ointment 15c and 50c. Talcum 25c. Cuticura Shaving Stick 25c.

## Gradually Clearing Scapa Flow

**Cruiser Hindenburg When Scrapped Will More Than Pay Salvage Cost**  
Sunk by her crew at Scapa Flow over six years ago, the German cruiser Hindenburg will be afloat again in a few months. How is it to be done, and what will happen then?

Already twenty-one smaller warships have been brought to the surface by means of wires passed under them from floating docks, but the Hindenburg, with a tonnage of 27,000, is much too heavy for that. She is to be made to rise of her own accord by having the water pumped out of her.

To do this all her portholes and all the eight "sea cocks" the Germans opened to sink her, will have to be covered with patches of concrete or steel. To get at the sea cocks, which are round holes in her hull, two feet across, it will be necessary to make tunnels in the sea bed on which she lies and to scrape away the barnacles and seaweed that cover her bottom.

All this will take twelve divers six months, but when they have done forty pumps will pump out some thing like 60,000 tons of water in twelve hours, and the Hindenburg will then slowly rise to the surface.

And what then? She will be run aground and broken up for scrap, the value of which will be more than worth the cost. After that the remaining big ships will be raised, at the rate of two a year, till Scapa Flow is clear of them.

## WEAK AND NERVOUS

**A Condition Due to Watery Blood — Easily Corrected Through the Use of Dr. Williams' Pink Pills.**

Thin, pale girls lack the power of resistance to disease that rich, red blood gives. Nervous breakdown is the result of thin blood. So is indigestion, headaches, backaches and many other troubles. Girls suffering from thin, impure blood need just the help Dr. Williams' Pink Pills can give. For many years Dr. Williams' Pink Pills have been a world-famous blood-builder and nerve restorer. They actually make new, rich, red blood which imparts new vigor and life to all the organs of the body. Their first effect is usually shown by an improved appetite; then the spirits revive and restlessness at night gives way to health restoring sleep. For sufferers from anaemia, nervousness, general weakness or physical exhaustion Dr. Williams' Pink Pills are a restorative of the utmost value. This is proved by the experience of Miss Sarah A. McEachern, R.R. No. 3, Brule, N.S., who says:—"About three years ago I became very weak and nervous. I had pains in my side and back. I also had frequent pains in the back of my head and neck. I was very pale and very weak. I had attacks of nervous irritability, and at times I was so nervous that life seemed hardly worth living. While in this condition a friend strongly advised me to take Dr. Williams' Pink Pills. I began taking these pills and used them for about two months with the result that there was such an improvement in my condition that friends would ask me what I was taking, and I was only too glad to tell them it was Dr. Williams' Pink Pills. I am now enjoying good health and am glad to give this statement for the benefit it may be to some other sufferer."

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

## Minard's Liniment for Rheumatism

## Ricksha Pulling Hard Work

## Men Following This Occupation Wear Out in Five Years

Sociologists looking into the question in Pekin, China, have determined that the business career of those furnishing the motive power for the man-drawn risksha is only five years. Such is the endurance period of the arduous work. In and out of employment there are from 40,000 to 50,000 risksha men in the metropolitan district. Street cars are slow to gain popularity.

Many mothers have reason to bless Mother Graves' Worm Exterminator, because it has relieved the little ones of suffering and made them healthy.

## Designer of Norge Honored

Col. Umberto Nobile, who designed the dirigible Norge and piloted it across the North Pole from Europe to Alaska, has been made a general of the Italian air service in command of all its operations.

You can almost see the cracks in the voice of some people when they attempt to sing.

## Little Helps For This Week

Cause me to know the way wherein I should walk.—Ps. cxliii, 8.

Then a voice within his breast  
Whispered audible and clear,  
As if to the outward ear,  
"Do thy duty, that is best,  
Leave unto thy Lord the rest."  
—Henry Wadsworth Longfellow.

Keep close to duty. Never mind the future, if only you have peace of conscience; if you feel yourself reconciled, and in harmony with the order of things. Be what you ought to be; the rest is God's affair. It is for Him to know what is best.  
—Henri Frederic Amiel.

Let us stand by our duty, fearlessly and effectively.  
—Abraham Lincoln.

## Detecting Crimes By Dust

Clever Detective Resorts to Use of Vacuum Cleaner

Probably the cleverest living detective is Professor Locard, of Lyons, whose feats are the wonder of all Europe. Many of them, curiously enough, have been performed with the help of a vacuum cleaner, with which he draws specks of dust, etc., from the clothing of suspected persons; and these microscopic clues have already sent dozens of murderers to the guillotine.

**For Both House and Stable.**—There is a good deal of similarity, physically speaking, between human beings and the lower animals. Both are subject to many ailments arising from inflammation and to all manner of cuts and bruises. Dr. Thomas' Electric Oil is an entirely reliable remedy for such ailments and mishaps in both human beings and the lower orders of animals.

## Beacon Lights Scare Coyotes

Sheepmen of Uintah county, Utah, say the new beacon lights on the airway of the transcontinental mail route have frightened away the herdsmen's eternal enemy—the coyote.

**For Rheumatic Pains.**—The pains and aches of Sciatica and Rheumatism should be treated with Dr. Thomas' Electric Oil. The soothing and healing properties of this famous remedy have been demonstrated for fifty years. Use it also for inflammatory pains, cuts, scratches, bruises and sprains, either in human beings or the lower animals.

## Gold Finder Died Poor

After making and losing several fortunes, James Marshall, who was first to discover gold in California, died in poverty and solitude in a lonely cabin close to the spot where he made his epochal discovery of gold 37 years before.

### Local.

Miss Jean Edwards of Seattle is visiting her brother and friends here this week.

Divine service will be held at St. Cyprian's next Sunday morning at 9.30.

Mrs. W. J. McCoy and daughter Mrs. W. Thurlow with her two children, left on Monday to visit friends in the east.

Miss Edith McAllee of Calgary will give pianoforte lessons in Didsbury on Tuesday of each week, commencing July 6th. All enquiries please address Mrs. Konshuk, phone 104.

The stampede at Calgary has been a big attraction this week, and large numbers of our residents have been down listening to the Guard's band, visiting the exhibition and having a good time generally—as far as the heat permitted.

W. S. Durrer left this week on a vacation and will be away about four weeks. During his absence all enquiries regarding funerals, etc., should be addressed to Alex. Guy, Didsbury, phone 80.

Mr. and Mrs. W. S. Durrer, with a part of the family, left this week on a auto trip, accompanied by Mr. and Mrs. Reed. They expect to visit among other places, Yellow Stone Park, Wyoming

and Oregon, returning in about a month's time.

The surface covering of gravel placed on the roads in town recently by the public works committee has been favorably commented upon, and many venture to hope that the treatment may be extended to other roads. Work of this kind if continued for a few years would place Didsbury on the map as far as its streets are concerned.

Orvil Adshead has taken over the agency for Nichols and Shepard threshing rig. In a western community this outfit needs no recommendation. Sufficient to say, Mr. Adshead has one of the machines on hand and will be glad to demonstrate its power, stability and efficiency.

The hot weather of the past few days has had a very marked effect on the crops, the growth being phenomenal, and farmers living in the district are feeling jubilant. Wheat is now in the head on a number of the farms, and alfalfa is reported to be a big crop. Dan Dippel is cutting his this week.

J. K. Cook of Rugby returned from a visit to Idaho on Saturday, and states that whilst the crops are more advanced down there the weather keeps very hot and in many places a difficulty is experienced in getting sufficient moisture. Mr. Cook returns quite satisfied that the Didsbury District is hard to beat anywhere.

On Tuesday, June 29th the marriage took place at Didsbury of Mrs. Emily Ellison of Galesburg, Illinois, to L. A. Ford, the Rev. Hayes of the United church officiating. Mr. Ford is one of our most prosperous farmers and to both he and his bride the congratulations of a large circle of friends are being tendered.

### MILLINERY SALE

For the next ten days there will be a sale of all trimmed, and ready to wear hats at cost prices, at Mrs. Peterson's.

### Mr. Miller Sleeps Like Log, Eats Anything.

"After taking Adlerika I can eat anything and sleep like a log. I had gas on the stomach and couldn't keep food down nor sleep." (signed) R. C. Miller. ONE spoonful Adlerika removes GAS and often brings surprising relief to the stomach. Stops that full, bloated feeling. Often brings out old waste-matter you never thought was in your system. Excellent for chronic constipation.

## Triple-Sealed

to Protect the Performance of  
**McLaughlin-Buick's Famous Engine**

IN the Better McLaughlin-Buick you  
will find the most important motor car  
improvement in recent years—the "Triple-  
Sealed" Valve-in-Head engine.

Dirt inside an engine destroys efficiency.  
It grinds away at cylinder walls and bear-  
ings, causing looseness and vibration.  
McLaughlin-Buick's "Triple Seal" (air  
cleaner, oil filter and gasoline strainer)  
prevents this—halts dirt and grit at every  
possible point of entry.

McLaughlin-Buick leads in motor car  
advancement. Wherever there are motor  
cars, the McLaughlin-Buick Valve-in-Head  
engine is known and highly regarded for its

smoothness, its extra power, its economy  
and its stamina. The McLaughlin-Buick  
"Sealed Chassis" plates every operating  
part inside an iron or steel housing to keep  
dirt out and lubrication in. And now the  
"Triple Sealed" engine further protects  
McLaughlin-Buick performance from the  
destructive grit of the road.

No other car, regardless of price, so com-  
pletely safeguards its performance. For  
more efficient service, for finer transporta-  
tion at lower cost, buy a McLaughlin-  
Buick.

The Better McLaughlin-Buick leads in  
registration all cars in its price range.

The new low GMAC financing rates are available  
to purchasers of McLaughlin-Buick on time.

## Holiday In Canada

Taking a holiday is "good business," provided the holiday is spent in a sane, sensible manner and largely out of doors. Such a holiday is likewise a form of Good Health Insurance. Money spent in a vacation in the open will prove a good investment and return handsome dividends in renewed vigor, increased energy to put into one's life work, and re-awakened enthusiasm and interest in life and all its manifold activities.

To the full extent possible people should spend the summer months in the open. Fresh air and sunshine are the best doctors in the world. They are doctors of preventive medicine and make no charge for their services which are free to all mankind, rich and poor alike. Summer holidays, to be most beneficial, should not be spent in visiting crowded cities, but in the woods, beside lakes, rivers and the sea, among the mountains—in a word, near to Nature's heart.

And no country in the world surpasses Canada as the ideal land for a summer vacation. People, who can afford to do so, may flock to tropical countries during severe winter weather, or enjoy winter sports such as are provided in Switzerland and Eastern Canada, but for a most enjoyable and healthful invigorating summer holiday, no country surpasses and few can equal our own Dominion.

In the variety and beauty of its offerings, Nature was most prodigal in its treatment of Canada. Nor did she confine her gifts to any one Province or section of the Dominion, but with lavish hand distributed bounties on all. There is something to appeal to every taste and inclination of the human race.

Furthermore, probably in no other country can a vacation be enjoyed at less expense than in Canada. For a real holiday a person needs a complete change of scene and an entirely different environment to that in which ten or eleven workday months are spent. In many of the older and thickly populated lands this is difficult to obtain without travelling long distances and at a cost beyond the means of the average person. But in Canada such a change is possible in a few hours journey with its great wealth of rivers, lakes, mountains, woods and seashores. Canada still remains a land of romance, a sportsman's paradise, with abounding natural beauty to inspire the poet, the artist, the lover of the wild. And these things are available to Canadians within the bounds of their respective Provinces.

But the dweller on the prairies of the West can at small expense obtain the greatest of all changes in his environment by spending his or her holiday in the Rockies, or journey a little further and bask among the beauties of Nature along the Pacific coast, or proceed eastward to the Great Lakes. People of Ontario and Quebec might well with advantage to themselves, and in real service to a more united and understood Canada, take a holiday among the people of the other Province, while the holidaying citizens of these two Provinces and the Maritimes could with pleasure and profit interchange visits.

If Canada lacked in providing scenes of Nature's beauty, or if these spots were few and far between and therefore difficult and expensive of access, there would be some excuse for Canadians not holidaying at home and learning more of their great Dominion, but, as already noted, this country takes second place to none as a place in which to enjoy Nature at its best, and in which to recuperate in mind and body, forget one's business worries and responsibilities, and restore worn out and jangled nerves.

Canadians, of course, must not be narrow, provincial people. They should know the world, and to know other countries and peoples it is necessary to travel. But half the enjoyment and more than half of the advantages to be derived from foreign travel is found in first having the fullest possible knowledge of one's own country. "See Canada First" is, therefore, not only a telling slogan but good advice to all Canadians.

And while not disparaging the beauties and exhilaration of Canada's winter, it is none the less true that the summer vacation months offer the best time in which to visit all parts of the Dominion and learn of its beauties, its resources, its grandeur, its transcendent possibilities.

## Purchases Exceed Sales

### Russia Buys More From Great Britain Than She Sells

The council of the Russo-British Chamber of Commerce has published figures tending to show a steady increase in trade between Great Britain and Russia.

The growth is given as from £15,000,000 in 1922 to £58,000,000 in 1925. The report says Russian purchases from Great Britain slightly exceeded Russian sales in the British market. The latter consists almost entirely of foodstuffs and raw material, while

the Russian purchases are largely machinery, tools, textiles and other manufactured goods.

The council points out that the entire business has been conducted on a credit basis and says it is not aware of any case in which the Russian organizations have failed to carry out their obligations.

## Better Gasoline Promised

### May Mean Increased Efficiency and Economy in Automobile Operation

Increased efficiency and economy in automobile operation are forecast by government experts as the result of recent motor fuel studies by T. S. Sligh, of the U.S. bureau of standards.

The simplicity of the Sligh test is claimed to make it possible for refinery supervisors, by an easy graduation of oils under refinement, to produce without elaborate manipulation and increased expense, a "standard" gasoline meeting the specifications and giving the public more efficient, uniform, dependable gas without increase in price.

"My client is not mentally normal. The fact that he murdered his wife is partly a proof of that, but the fact that he married again is conclusive."

## Find Magnificent Temple In East

### Discovery in Indo-China Made By French School of Excavation

A magnificent temple, dating back to the early fourteenth century, has been discovered by the French School of Excavation, in the Far East, now working in Indo-China. The temple is described as the finest example of the art of that period yet seen, and the inscriptions upon it throw considerable light upon history.

Experts of the school have just reported to the institute in France that the temple is near Angkor Thom, and that other buildings of the same age probably will be uncovered in the vast forests north of the present excavations. These forests will be explored this year.

Another remarkable discovery was reported to the institute from the province of Tanh Hoa, Indo-China, where several Chinese tombs were unearthed, but not a single bone found. Precious objects in bronze and other metal were discovered.

## Woman Will Attempt Flight Across Pole

### French Actress Announces Intention To Try Trip This Summer

For years men have been seeking to locate the North Pole, and now the curiosity and itch for publicity has inspired a few of the other sex to dare the cold of the frozen lands. Miss Ida Rubenstein, a French actress, has announced her intention of flying across the pole this summer. In New York, another woman intends to gratify her craving for fresh experiences, and accompanying MacMillan's Polar party. Miss Maude B. Fisher, the aspirant for fame, is a graduate of Barnard College, and an athlete. "The quest for the unknown, overshadows all fear," said Miss Fisher.

## NO MEDICINE LIKE BABY'S OWN TABLETS

### For Either the Newborn Babe or the Growing Child

There is no other medicine to equal Baby's Own Tablets for little ones—whether it be for the newborn babe or the growing child the Tablets always do good. They are absolutely free from opiates or other harmful drugs and the mother can always feel safe in using them.

Concerning the Tablets, Mrs. John Armour, R.R. 1, South Monaghan, Ont., says:—"We have three fine, healthy children, to whom, when a medicine is needed, we have given only Baby's Own Tablets. The Tablets are the best medicine you can keep in any home where there are young children."

Baby's Own Tablets are a mild but thorough laxative which regulate the stomach and bowels; banish constipation and indigestion; break up colds and simple fever and make teething easy. They are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

## Poland Not Leaving League

Reports in Geneva that Poland was considering withdrawing from the League of Nations unless her demand for a permanent seat in the League Council is satisfied, were denied by Auguste Zeleski, foreign minister.

Whether the corn be old or new growth, it must yield to Holloway's Corn Remover.

## Netted Small Fortune

### Man Repaired Flag Poles In South Africa Preceding Visit of Prince

Hubert Kirkland, a South African, found his profession of steeplejack at a discount when the Prince of Wales decided to visit South Africa in 1924.

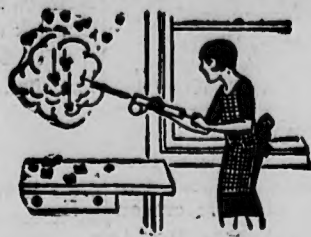

Kirkland seized the idea of touring the provinces according to the Prince's itinerary, repairing flagstaves, adjusting pulleys, threading new ropes and mending bunting. He kept a good three months ahead of the Prince, returned to Durban with a small fortune and determined to make holiday.

He has now arrived in London from America after holidaying profitably and leisurely in Australia and New Zealand, the Pacific Islands, India, the Straits Settlements and Canada. Kirkland would only smile shrewdly when asked what his flagpole work netted him.

Judgment Creditor (at the Bow County Court): The defendant has a dyeing business.

Defendant: A dyeing business? I did have, but it is dead.

Minard's Liniment for Sore Feet

## Fly-Flit-Flop!

FLIES breed in filth, feed on filth and bring filth into your home.

Flit spray clears your home in a few minutes of disease-bearing flies and mosquitoes. It is clean, safe and easy to use.

## Kills All Household Insects

Flit spray also destroys bed bugs, roaches and ants. It searches out the cracks and crevices where they hide and breed, and destroys insects and their eggs. Spray Flit on your garments. Flit kills moths and their larvae which eat holes. Extensive tests showed that Flit spray did not stain the most delicate fabrics.

Flit is the result of exhaustive research by expert entomologists and chemists. It is harmless to mankind. Flit has replaced the old methods because it kills all the insects—and does it quickly. Get a Flit can and sprayer today.

## Comparison By Total Tonnage

### Only Way to Judge Naval Armaments Says France

France has proposed to the disarmament experts meeting at Geneva that the only way of comparing the naval armaments of the various countries is by total naval tonnage.

This raises the question of the effect adoption of the French thesis would have on the Washington naval agreement.

The significance of the French-Italian initiative is that both countries seek liberty to strengthen their submarine and cruiser forces which they deem more important to their national defence than battleships. Both United States and British delegates are hoping that the global tonnage conception will not interfere with the Washington accord. They believe that the ratios of capital ships established at Washington could remain the nucleus of such a tonnage programme.

Miller's Worm Powders act mildly and without injury to the child, and there can be no doubt of their deadly effect upon worms. They have been in successful use for a long time and are recognized as a leading preparation for the purpose. They have proved their power in numberless cases and have given relief to many children, who, but for the good offices of this compound, would have continued weak and enfeebled.

Even if the meek do inherit the earth in accordance with the ancient prophecy, they'll still have the traffic cops to contend with.

## Recuperative Powers Of Fish

### Frozen Solid By Liquid Air Will Revive In Water

An audience in New York was treated the other night to an exhibition of the recuperative power of fish under injury by extreme cold. Professor Estabrook, of City College, transferred from a bowl of water into a jar of liquid air, two goldfish. Upon removing them frozen, one was shattered into brittle fragments by a hammer. The other, returned to the water, soon swam about naturally.

Dust Causes Asthma. Even a little speck too small to see will lead to agonies which no words can describe. The walls of the breathing tubes contract and it seems as if the very life must pass. From this condition Dr. J. D. Kellogg's Asthma Remedy brings the user to perfect rest. It relieves the passages and normal breathing is firmly established again. Hundreds of testimonials received annually prove its effectiveness.

## Plan Gas Attack Memorial

Survivors of the first gas attack by Germany on the Yser front, April 22, 1915, have taken steps that a monument be erected to those who were killed by the stifling fumes. The Duchess of Vendome heads a committee which has started the collection of funds for the monument.

## Minard's Liniment for all pains

Of all the disagreeable fads known to mankind, the bill-collecting fad is about the worst.

## Bee Stings.

Minard's eases the pain and reduces the swelling caused by stings and insect bites. Keep it handy.

W. N. U. 1636

## Children Cry for

## MOTHER:— Fletcher's

Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of *Charles H. Fletcher*. Absolutely Harmless—No Opiates. Physicians everywhere recommend it.

## A TEMPORARY CABINET FOR NEW GOVERNMENT

Ottawa.—Acceptance by Right Hon. Arthur Meighen of the post of prime minister, formation by him of a temporary ministry composed of seven members without portfolio, and the decision to proceed with the work of the session until it is completed, were the outstanding features of a statement made in the house by Sir Henry Drayton.

From the treasury benches to the right of the speaker, Sir Henry read his statement to the crowded house and galleries. The announcement of the temporary appointments was received with some jeers by the Liberal opposition, while Conservative cheers answered them. The ministers who will constitute the temporary ministry were:

Sir Henry Drayton, finance department and railways department.  
Hon. R. J. Manion, department of health, soldiers' civil re-establishment, post office, immigration and labor.

Sir George Perley, department of secretary of state and public works.  
Hon. H. J. Spence, customs, interior, and affairs, agriculture, trade and commerce.

Hugh Guthrie, justice, national affairs, and fisheries.

A. Mack, department of the portfolio of secretary of state for external affairs and president of the privy council.

Sir George Perley, the statement said, will have charge of matters affecting these departments during Mr. Meighen's absence from the house.

### Rural Credits Bill

Has Passed Senate With a Few Amendments.

Ottawa.—The rural credits bill passed the senate with a few amendments. The measure was passed by the commonsense majority of the Mackenzie King government, now goes back to the commonsense of the concurrence of that chamber in the amendments which the upper chamber has made in it.

The two principal changes made were the removal of the limitation of one per cent. for expenses and leaving the amount in the judgment of the board, and placing responsibility for all expenses incurred in a province on the province in which they were incurred.

Senator W. B. Ross, Conservative leader, had moved at an earlier stage that "the act should not come into force until the majority of the provincial legislatures had by legislative enactments signified their intention of participating in this scheme."

He said the bill was not needed, as the provinces which had already rural credits were making profits.

Senator St. Laurent said that to make it compulsory to have five provinces in the scheme before it became operative was a good way to kill it.

Senators Dandurand and Willoughby opposed the amendment. The bill was for all Canada while it was primarily to help western farmers. The bill would not be passed if the east would need such a law.

Senator Bejous spoke in favor of the bill. It carried out a duty the east owed to the west.

### Find Ring In Grain Car

Lost Last Fall In Wheat Separator Near Findlater

Regina.—Some time last September on Ed. Dillsborough's farm, out from Findlater, a ring was found in the wheat separator.

The other day E. J. Topping received the following from the N. M. Patterson Grain Co., Winnipeg:

"Dear Sir.—We are today in receipt of a wire from our Mr. Greaves at Fort William advising that they found a Masonic ring in car No. 345119 which was shipped by you from Findlater. Do you know anything about it? If you do communicate direct with him."

Fort William, care of N. W. Patterson.

A few days later the ring was back to the owner.

W. N. U. 1436

### Is Again Premier

Rt. Hon. Arthur Meighen, who has been called upon to form a new Government at Ottawa.

### Predicts Industrial Activity For Canada

C.N.R. President Advises People To Stay in Dominion

Montreal.—The United States sent a great railway man to Canada in the person of Lord Shaugnessy who was one of the greatest empire builders, few men having done as much as he did for Canada. If I can make a slight approach to his work I shall not have lived in vain.

So declared Sir Henry Thornton, president of the Canadian National Railways, speaking at a banquet of the American Railway Association here.

Sir Henry made mention of the harmonious existence in Montreal of two great races, and also to the lure that the United States has had for many Canadians, drawn thither thereby commercial advantages. He warned prospective emigrants, however, that theirs will be the advantage if they stay at home and are content to look ahead to the future in which looms the star of prosperity.

"Things are going to happen in Canada in the next ten years," he stated emphatically, "for Canada is on the threshold of great industrial activity."

### Weather Prediction Not Fulfilled

"Summerless" Forecasters All Wrong Says Sir Frederick Stupart

Toronto.—Predictions that 1926 would be a "summerless year" have so far not been fulfilled. This prediction was made by H. J. Browne, ocean meteorologist, of Washington, last fall.

April was unusually cold, but May was somewhat above the average temperature. June is a little colder than the average, but not much. This information was given by Sir Frederick Stupart, director of the Dominion Observatory here, and weather forecaster for the Dominion.

Sir Frederick was not worried about the report that this would be a "no-summer year." "I put little faith in weather prophecies for long periods ahead," he said. "We have not the knowledge to determine such events in the future."

### New Red Lake Strike Reported

Said To Be As Good As Any Yet Discovered

Toronto.—A special dispatch to the Toronto Star from Hudson, Ont., reports a big new strike at Red Lake.

The report states that this was flashed around the mining camp and that the find is on what is known as the Bill Smith group, a mile east of McKenzie Island. Veins are said to have been uncovered as good as anything yet found at Red Lake or vicinity.

The Star says: "A number of average channel samples from this property assayed from \$9 to \$32 per ton for gold, with an equal quantity of silver."

Advocates Reform of League Pact

Paris.—The International Judicial union is studying a report of Alejandro Alvarez, of Chile, advocating reform of the League of Nations pact, with the creation of separate American and European league of nations in mind.

## FARMERS' PARTY OF ALBERTA TO REMAIN IN POWER

Calgary.—Premier J. E. Brownlee has been returned to power at the head of the United Farmers of Alberta. He will have an undiminished majority in the legislature. Liberals will probably retain their numerical strength. The Conservative party made a gain of three seats. Two Labor members, and possibly a third, pledged to support the government, were elected.

Additional returns came slowly today and tonight due to the arduous task of counting the preferences under the proportional representation system. In quite a few cases several days will elapse before elections can be definitely declared.

Labor suffered because of the Conservative vote in Calgary, returning but one member compared to two from the city in the last election. Hon. Alex. Ross, minister of public works, labor candidate, was defeated and the Labor vote generally was small.

Constituencies represented by U.F.A. members in the fifth legislature returned their representatives as a general rule. In Beaver River and Edmonton the party gained members. In the two new seats, Empress and Cypress, added since the 1921 provincial election, farmer candidates were returned.

### Austria Confident Of Financial Prosperity

Country Has Had Hard Struggle Since Armistice

Vienna.—War in the Balkans will be the last thing Austria would want to see. We want nothing but to be left in peace. We have no resentful minorities, we seek to recover no lost provinces. We only want to live and be useful.

One of the greatest Vienna bankers is speaking. He is a cultured, proud, aristocrat of the old days of the dual monarchy when the banks of Vienna competed with London, Berlin, Paris, Frankfurt and Munich.

"Austria has struggled hard and far since the armistice," he said. "We have had repeated setbacks and disasters, but we have come back to our task each time and always has it been proven that there are no artificial shortcuts to solvency and to success and prosperity."

"The depression followed us all through last year. Although our unemployment continues to increase, I believe that now we have turned the corner, although we face tremendous difficulties."

### Gets Seven Years

Winnipeg.—Joseph X. Hearst, former president of the Hearst Music Publishing Company, was sentenced to seven years imprisonment in Stony Mountain penitentiary. He was found guilty of eight charges involving fraud and making use of forged documents and false pretences.

### Miners Stand Pat

London.—The miners' executive committee, after reviewing the coal situation, determined to stand by their decision to resist any increase in hours or reduction in wages.

### Would Colonize Russia

American Jews Give Ukraine Preference Over Palestine

Riga, Latvia.—A large majority of American Jews are in favor of the American Government recognizing Soviet Russia, according to Dr. Joseph Rosen, director of the American Joint Distribution Committee, which has collected \$20,000,000 in the United States to colonize Jews on farm land in the Ukraine.

In an interview published in the Leningrad Krasny Gazette, Dr. Rosen says only a few Jewish social and democratic papers, such as the New York Vorwarts and a few of the Jewish labor unions oppose recognition.

The American Jewry, continues Dr. Rosen, has decided it is better to assist the Russian plan for colonizing Jews in the Kherson district, averting future pogroms, instead of helping Palestine at present. Of the 3,000,000 Jews in Russia he estimates that more than 1,000,000 are unable to earn a living, so the colonization plan was voted preference over the Palestine project by a meeting of the American Jews in New York.

### Is Appointed Manager

E. G. Hingley Is the New Manager of the Saskatchewan Wheat Pool

Regina.—Appointment of E. G. Hingley, secretary-manager of the Saskatchewan Municipal Hall Insurance Association, as manager of the Saskatchewan Wheat Pool, was officially announced following the reorganization of the Wheat Pool and Saskatchewan Co-operative Elevator Company's executives.

Donald MacRae, who has been joint manager of the Wheat Pool and the Pool Elevators Ltd., is appointed to the position of manager of the reorganized pool elevators, while S. G. Lowthian, treasurer of the Saskatchewan Co-operative Elevator Company becomes treasurer of the Wheat Pool in succession to J. D. Reed who takes over the treasurership of the Saskatchewan Pool Elevators Ltd.

### British Comment

London Times On the Resignation of the King Government

London.—The London Times, commenting on the result of the resignation of the King Government in Canada, stated that the agitated debate at Ottawa on a purely domestic issue revealed the inherent weakness of the government, which could never count on a solid party majority, but was dependent on vague affinities with a declining group whose own prospects were obscure.

The Times continues that "it is not necessary to analyze the nature of the charges or attempts to assess the losses said to have been caused by the Canadian business community generally by the alleged extensive smuggling."

### Planned To Shoot Mussolini

Rome.—Tito Zaniboni, former Socialist deputy, has confessed that he planned to shoot Premier Mussolini, according to a report of the attorney-general's investigation of the case, made public here. Zaniboni was arrested October 4 last, armed with a rifle, in an hotel room overlooking the balcony of the Chigi Palace from which the premier was to deliver an address.

## FOR CLEAN-UP OF CUSTOMS FROM COAST TO COAST

Ottawa.—"The farmers party stands for a complete clean-up of the customs from coast to coast," said Miss Agnes McPhail to the Canadian Press after the Progressive party caucus. "The present inquiry has been confined to only two ports and has but scratched the surface. It must be extended from coast to coast and be complete, without fear or favor, and irrespective of where the chips fall. There should be a judicial inquiry, and this should represent all groups in the house—that is to say, one judge should be nominated by the Liberals, one by the Conservatives and one by the Independent groups. This commission should proceed to work immediately after adjournment of parliament and parliament should not meet again until the report is complete, whether it takes six or eight months. Then parliament will be in a position to consider the whole question on its merits; there will be no sheltering of higher-ups, to whatever party they may belong, and the general result will be a clean-up of political life in Canada of lasting benefit."

### Great Damage Is Caused By Earthquake

Most of Countries Bordering on Eastern Mediterranean Affected

London.—The great earthquake which embraced the area north of the countries bordering on the Eastern Mediterranean, was much more widespread than first reports indicated. It extended as far as the East Indies, heavy shocks being experienced at Singapore and Central Sumatra.

Thus far the reports do not indicate any serious casualties in Crete, which appears to have been the centre of the disturbances, nobody was killed and only a few were injured.

Advices received from Rome indicate that the Island of Rhodes, which is under Italian sovereignty, suffered very heavy shocks, numerous villages being partially wrecked, and thousands of small houses razed, but even there the loss of life or injury to the inhabitants seems to have been slight.

Latest advices from Crete confirm that the damage to the archaeological museum at Candia was extremely serious, among the many antiquities destroyed being a mural painting representing a bull fight at the Minoan Court.

### Bitter Verbal Clash In British House

Labor M.P. and Secretary of Mines In Dispute

London.—Another turbulent scene in which Joseph Westwood, Labor member for Midlothian and Peebles, threatened personal violence against Col. George Lane-Fox, secretary of mines, occurred in the House of Commons when debate was resumed on the government order which would permit coal miners to work eight hours a day instead of seven as at present. Col. Lane-Fox stated that if he had said anything which seemed offensive he withdrew it.

He thought there had been misconception of what he had said.

Mr. Westwood had previously threatened to take a boot off and throw it at Col. Lane-Fox, "if I cannot get anything else."

The Labor member was deeply moved by a remark which he thought reflected on the courage of his men folk.

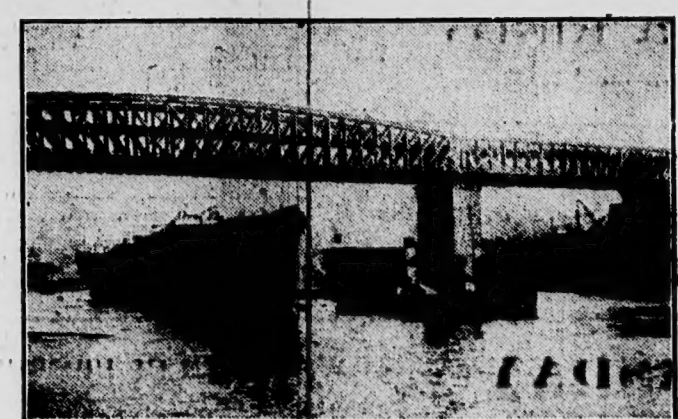

### Young Englishmen Coming To Canada

Have Taken Six Months Training In Agricultural Work

London.—Fifty-six single young men who have undergone six months training in agricultural work at the ministry of labor's training centres at Brandon and Claydon in Suffolk, left for Canada on the Empress of France. They will proceed to Winnipeg where they will be placed on selected farms.

The country of Tibet is reported to have only one motor vehicle, which is a motorcycle.

## To Carry Canada's Products Abroad

The new freighter S.S. "Cairnes," just launched at Sunderland, England, is one of the two new sister vessels specially designed for the Cairnes-Thomson line service between the northeast coast of Great Britain and Canada.

The carriage of perishable foodstuffs from this country to Great Britain is a most important function of this service. The "Cairnes" equipment embodies the most modern facilities for refrigeration, ventilation and carriage of perishable goods.

### Westcott.

The Westcott Literary Society  
held their regular meeting Tues-  
day night. The program con-  
sisted of games, songs and read-  
ings, after which ice cream and  
cake was served.

Mr. McFarland is going to Ed-  
monton to mark examination  
papers.

Mr. and Mrs. Harry Brown and  
family are spending a day at the  
Calgary Stampede this week.

Harry was seen going west  
Sunday morning. We guess he  
is on steady now.

Everybody is going to Rine-  
hart's dance Friday night if it  
don't rain.

Mr. Ross Ford accompanied  
by Miss Genevera Brown made a  
flying trip to Olds last week.  
"Steady Ross."

Mr. Ira Leoney is now work-  
ing for Ira Levagood.

The last minstrel show was  
held at Carstairs. There was  
not a very large crowd.

Quite a large crowd attended  
the Baptist church last Sunday  
night.

Mr. Ross Ford and brother  
Milton spent Sunday with their  
brother at Nanton. Ross is  
leaving for Ontario soon. We  
wonder if he will come back alone.

### CHURCH SERVICE.

Special Evangelistic services  
are being conducted at Westcott  
Baptist church. Rev. E. Reimer  
is being assisted by Rev. J. Wil-  
ard Litch, D. D. Sunday is the  
closing service when Dr. Litch  
will give the story of his con-  
version from infidelity. Dr.  
Litch was formerly pastor of the  
First Baptist Churches of Van-  
couver and Calgary, and is now  
superintendent of missions for  
Alberta and British Columbia.  
He will speak Sunday morning at  
Zella school house and Sunday  
afternoon at 2 p.m. at the West-  
cott Evangelical church, and in the  
evening at 8 p.m. in the Baptist  
church.

### SPORTS AT WESTCOTT

For the sports at Westcott on  
Thursday, July 29th an excellent  
program has been arranged, and  
the spectators will be treated to a  
day's real sport. Two baseball  
games have been arranged to take  
place at 10.30 and at four o'clock.  
Athletics will commence at one  
p.m., and will comprise the fol-  
lowing:

Special half-mile foot race, and  
various events for men, women  
and children. At two p.m. there  
will be a half-mile free for all  
running, the prize being \$20.00,  
half mile farmers' trot, in harness,  
quarter mile boy's pony. Then  
there will be a relay race, part-  
ner's race, walk, trot and run race,  
also barrel, pulling stakes and  
tato races.

Confectionary booths will be on  
the grounds, but visitors are ad-  
vised to take their lunch.

The admission fee will be 50c  
and 25c. Dance at night in C.  
H. Rinehart's barn.

### TOWN OF DIDSBURY.

#### NOTICE

The pasturing of horses and  
cattle within the limits of the  
Fair Grounds is strictly prohib-  
ited, and in future any animal  
found pasturing there will be  
deemed to be running at large  
and will be dealt under the Pound  
By-Law.

By Order of the Council  
W. A. Austin,
